TECHNICAL SKILLS

- **PROGRAMMING LANGUAGES**

C, C++,C#, HTML, Tailwind CSS, JavaScript, Java, PHP, Python, Kotlin, Scripting

- **FRAMEWORKS**

React.js, Express.js, Bootstap, Angular, ASP .Net

- **DATABASES**

MySQL, MongoDB, Oracle, SQLite

- **TOOLS AND TECHNOLOGIES**

Git (Version controlling), Postman, Figma, Docker, Cisco Packet Tracer, Microsoft Office, Visual Studio, Visual Studio Code

- **METHODOLOGIES**

SDLC, Agile

PROFILE

Enthusiastic and dedicated undergraduate Software Engineering student at SLIIT, driven by a passion for crafting innovative solutions. I have recently completed a 6-month internship as a Trainee Software Engineer at eArrow Pvt Ltd. Thriving in challenging environments that foster continuous learning, I bring a commitment to excellence honed through hands-on software development experiences. I'm also familiar with .NET technologies and eager to collaborate with dynamic teams in the tech industry.

EXPERIENCE

Intern – Software Engineer
eArrow (Pvt) Ltd, Nugegoda, Sri Lanka
October 2024 – April 2025

- Worked on Student and Higher Education Management Systems (SMS, HEMS)
- Developed and optimized report generation modules
- Built frontend and backend features using Angular and PHP
- Collaborated in Agile teams with stand-ups and code reviews
- Used Git for version control , Followed MVC Architecture and used VS Code for development

EDUCATION

Sri Lanka Institute of Information Technology (SLIIT) 2022 - PRESENT

- BSc. Hons in Software Engineering - Undergraduate
- CGPA: 3.3/4.0

Oracle University 2023 - PRESENT

- Oracle Certified Foundations Associate

American College of Higher Education 2022

- English Diploma - Level 3

Maliyadeva Girls' College 2022

- GCE Advanced Level (Physical Science Stream)

SOFT SKILLS

- Teamworking Skills
- Willingness to Accept Challenges
- Strong Communication Skills
- Adaptability
- Strong Problem-Solving Skills
- Self-Learning Ability - Fast Learner
- Time Management

LANGUAGES

- English (Fluent)
- Sinhala (Native)
- German (Basics)

EXTRA-CURRICULAR

Active member of Interact Club of Maliyadeva Girls' College

2017-2021

PROJECTS

Inventory Management System - Personal Project 2025

Developed a web-based inventory management system using **C#, .NET, and MySQL** as the database. The project followed the **MVC architecture** to ensure clean separation of concerns. Key features include inventory tracking, product categorization, and sales reporting. This project strengthened my skills in backend development, database management, and application structuring using .NET technologies.

selyn -automated garment managegemt system - group project 2024 - 2025

An automated garment management system for Selyn Company to streamline operations across all the functionalities of the garment industry. I am currently developing the Supplier Management function.

MERN stack technology to develop this web application

Task Tracker - Mobile App 2024

A task management app using **Android Studio and Kotlin**, incorporating Room Persistence Library, **ViewModel architecture**, and **Kotlin Coroutines** for efficient task handling. Features include persistent storage with **SQLite**, and organized task views via **RecyclerView.**

Event Planning System - Group Project 2023

Developed an event management system using **Java, HTML, CSS, JavaScript, and MySQL**. Contributed by designing and implementing the payment management functions. This project strengthened my skills in frontend/ backend development, database integration and **OOP concepts.**
